Description:

The GSK-520B is an outdoor rock garden speaker built-in 70v/100v transformer. The 70v/100v transformer technique reduces line losses on longer distance and allows easy parallel connection of multiple loudspeakers, thus the CMX AUDIO PA technology outdoor rock speakers support more than 600 pieces per installation sound system and the transformer technology helps the amplifier to loudspeakers distance up to more than 10kms. The GSK-520B built-in 5.25" waterproof coaxial PP speaker drivers are designed of wide frequency response 120-15kHz, the multiple power taps of 20W & 10W could meet different outdoor area sound applications and ambient noise surroundings. The organic fiber glass reinforced composite enclosure of IP66 withstands of harshest abuse, heavy damage proof no color fade for many years outdoor like seashore & swimming pool use.
